

# A CHANNEL TO EXCHANGE KNOWLEDGE ABOUT MIGRATION

Since 2009, the **MI**gration **EU** **eX**pertise (MIEUX+) Initiative offers opportunities for European Member States to support the European Union's (EU) partners in developing effective migration governance and management capacities in Africa, Asia, the EU Neighbourhood and Latin America and the Caribbean.

This **exchange of knowledge** between European Member States (and beyond) and countries eligible for development assistance from the EU contributes to safe, orderly, regular and responsible migration as espoused by the **UN Sustainable Development Goal 10 Target 7.2**. As an instrument of EU cooperation, MIEUX+ supports the practical implementation of the external dimension on asylum and migration in the **European Pact on Migration and Asylum**.

MIEUX+ increases the visibility and exchange of knowledge about the EU's framework for migration management, EU standards and expertise, thus contributing to a harmonisation of theory and practice in migration management and governance around the world.

MIEUX+ is funded by the EU through the Development Cooperation Instrument coordinated by DG International Cooperation and Partnerships (**DG INTPA**) and implemented by the International Centre for Migration Policy Development (**ICMPD**).

## HOW TO WORK WITH MIEUX?

MIEUX+'s Actions create mutual learning spaces; partners learn from the EU, its MS or other partner countries' experiences, while experts from EU MS see their skills enhanced and gain in-depth knowledge of local and regional contexts. MIEUX+ promotes the 'Team Europe' approach by supporting the European Commission's current strategy and the EU MS programming priorities via the expertise deployed. Through MIEUX, EU MS can benefit from two possible avenues for cooperation and partnerships:

1

At **individual level**, via the mobilisation of public officials from migration-related institutions as experts providing technical assistance for partner countries in our upcoming Actions.

2

At **institutional level**, EU MS can liaise with partner countries or with the MIEUX team to initiate requests on topics of shared interest or participate in knowledge-exchange sessions on these topics.
